ABOUT ME

UX/UI Designer and Developer with proven expertise in crafting intuitive, accessible, and business-oriented digital experiences. Skilled in designing user-centered platforms, optimizing usability, and implementing scalable solutions with React, WordPress, and Unity. Recognized for delivering projects that enhance client value, foster engagement, and meet deadlines with precision.

In my free time, I enjoy puzzles that sharpen my problem-solving skills and board games that inspire my personal projects. I stay up to date by learning new tools and programs that strengthen my technical and creative competencies.

EDUCATION
